***Helios Nutrition™ Organic Kefir-**

Kefir is a yogurt-like drink that has become quite popular over the last few years. It is similar to yogurt drinks, but is actually derived from bacteria-cultured and *fermented* milk. The drink is cultured using a bacteria and yeast combination, which actually leaves the drink fizzy and light. The yeast ferments lactose, up to 90% of the lactose can be converted. Consequently those who are lactose intolerant can more easily process it. Kefir has been used for centuries in Eastern Europe to promote stomach and intestinal health. It comes in five flavors and it's delicious!
